Dynamic Tools Introduces Contractor Series Combination Wrenches

Brampton, Ontario, October 2010 - Dynamic Tools launches "Contractor Series" combination wrenches. This new value line of wrenches responds to contractors' needs to outfit entire team(s) with reliable and easy to use tools that make any job easier.

Developed as a superior alternative to raised panel wrenches, the new Dynamic "Contractor Series" wrenches feature a smooth comfort handle eliminating the "raised panel" seen on similarly priced tools. Eliminating the panel provides dramatically improves user comfort especially in highly intensive or repetitive jobs. The smooth panel design also makes the tools much easier to clean and maintain.

In addition to superior comfort, Dynamic contractor series wrenches also feature a unique combination of large hard stamp and laser laser-etched size markings. The dual marking design makes size identification by users quicker and easier. The dual markings concept combined with a smoothed matte finish truly makes these wrenches an outstanding value in the segment.

The new wrenches are available in both loose and sets configurations, and in sizes varying from ¼" to 2 ½" and 6 to 32 mm respectively. The four sets configurations each
